

Refrigerator Air Filter

WS-AF2 Removes Odors From Your Refrigerator

The WS-AF2 refrigerator air filter uses carbon to absorb odors from your refrigerator. Why let odors from fish, leftovers, chopped onion or garlic taint your fresh food? The WS-AF2 air filter helps eliminate these and other odors by capturing them in its' carbon filter element. The built in wall mount makes installation a breeze. Simply turn the filter cover to the left to detach from the refrigerator wall. Remove the old filter and insert the new air filter into the cover with "Front" facing out. Place the filter cover back on the refrigerator wall, turn it to the right and reset the change air filter light and you're set for an odor free refrigerator!

Fits: LG LT120F
