

Installation Quick Start Guide for WSGH-12

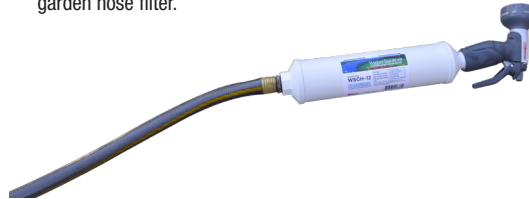

Important Installation Instructions

1 Remove all packaging from your new garden hose filter.

2 Connect your new garden hose filter to the end of your garden hose.

3 (Optional) Connect a garden hose nozzle to the outlet of your new garden hose filter.

4 Flush about 1 gallon of water prior to use.

For further questions or assistance please call (866) 218-8473.

Warning: To reduce the risk of property damage from water leakage, the filter bypass plug **MUST** be used when a filter replacement cartridge is not installed. For cold water applications only. Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Protect from freezing. Replace Garden Hose Filter annually or 10,000 gallons based on the water quality in your area, or if bad taste or odor occur.

The risk associated with small parts can cause choking if swallowed.
Keep children away from small parts during the replacement of the water filter.
