

## Mission Statement

To provide healthful, great tasting water at an economical price to consumers in every home and business, while generating less impact to the environment.

With over 150 years of combined experience, **Aquamor**, LLC, formerly TST Water, LLC, is a leading manufacturer of aftermarket refrigerator water filters, as well as filtration products for the Food & Beverage industry, swimming pools, dishwashers, gardening, and even filtered water for pets. In addition, we also offer a full line of proprietary ultrafiltration systems that represent the next generation of affordable residential and commercial water treatment solutions.

**Aquamor** is committed to providing the highest quality water filtration products worldwide.

Engineered by water treatment professionals, one of which collaborated on the first refrigerator water filter ever made, our refrigerator filter line consists of 25 models that fit all major brand refrigerators. Located in Temecula, CA and operating in over 150,000 sq. ft., we are most proud of the fact that

**Aquamor** is the only manufacturer of aftermarket refrigerator replacement water filters that have NSF/ANSI, and IAPMO R&T Standard 42 Certifications AND are **Made in the USA!**
